## How Much Water Could a Watershed Shed? As much water as a watershed could if a watershed could shed water! But, is it clean?

**Winchester, VA 3/19/05:** Get your own hands into an exploration of Virginia's watershed as Mary Bruce Glaize presents our new EnviroScape model. Come see the effects of rain run off, pollution and conservation practices. Awaken your appreciation for the everyday impact of our lives upon our watery world. The program will be on Saturday, March 19 from 1:00 – 3:00 p.m., and is FREE with Museum admission. The Winchester-Clarke Garden Club makes this new EnviroScape experience possible.

The Shenandoah Valley Discovery Museum offers an interactive, hands-on experience for families, which focuses on the sciences, mathematics, humanities, and the arts. Explore the exhibits in natural history, paleontology, simple machines, and art-in the making. Scale a climbing wall, race balls through loops and ramps in Raceways, step back in time to a life closer to nature in A Walk Along The Moccasin Trail or pretend you're saving lives in the medical cove of Our Town. At the Discovery Museum to touch is to explore, to explore is to discover, and to discover is to learn!
